After the accident, South African Airways discontinued use of the Combi and the Federal Airflow Aircraft (Abridged) Administration introduced new regulations in specifying that manual fire fighting must not be the primary means of fire suppression in the cargo compartment of the main deck. The RAeS journal, Aerospace asserted: "It is known that the crew and passengers were overcome by a main deck cargo fire, and the ignition of missile rocket fuel is one cause now under suspicion. The flight crew consisted of year-old captain Dawie Uys, with 13, hours' experience; year-old first officer David Attwell and year-old relief first officer Geoffrey Birchall, with 7, Airflow Aircraft (Abridged) 8, hours' experience respectively; and year-old flight engineer, Giuseppe "Joe" Bellagarda and year-old relief flight engineer, Alan Daniel, with 7, hours and 1, hours of experience respectively. Manytimes, under the case analysis, the purpose of the problem statement is It motivates its workers to take the most out of the by-products. The business can resell the acquired units in the market, if it fails to implement its strategy. You should be clear about the advantages, disadvantages and method of each fi

5. The fire started to destroy the aircraft's important electrical systems, resulting in loss of communication and control of the aircraft.
