It is not comprehensive. Below are some examples of agricultural zoning codes that address agritourism topics: Nevada County adopted ordinances that went into effect in April clearly defining and allowing "ancillary and accessory uses" to include agritourism activities. Below are sample documents related to various stages of the process of planning and regulating agritourism in California, gathered by the UC Small Farm Program, as an aid to county planners, agritourism advisory committees and concerned agritourism operators. To access FAQs or to submit a question, click the arrow to the right. The county general plan is an evolving, long-range document that sets the direction for future development and use of county resources. The proposed amendment defines the percent of land permitted to be used for the agritourism operation and defines

"glamping. Below are a few examples of guides that help clarify regulatory jargon for easier use by agritourism operators.

Winery ordinances often regulate the size of tasting rooms, the number of employees, and the number of employees.

1. In the case of forming the initial board, and if the registration program established pursuant to this division has not yet been implemented, these board members shall be those who intend to register as growers of industrial hemp.
