Read Online - by Cory Boatright. Puryear MD. SD involves balancing the economic, environmental, and social aspects of the SD system, often called people, planet, and profit or the triple bottom line Elkington,

After the introduction, the paper is divided into five parts: 1. literature review Stakeholders can be influential in determining project SD strategy Khalfan, This paper presents preliminary findings from semi-structured interviews based in a constructivist transactional approach to knowledge creation as part of PhD research. As seen, this understanding is not always holistic. Similarly, the innovation required to overcome environmental challenges in the multi-stakeholder SD context, alignment of planned corporate SD strategy does not sufficiently explain the challenge of integrating SD principles in projects.
